

Emmet Broaders

Supply Chain Software and Analytics Consultant

WORK EXPERIENCE

Curatyx, London

International import and export of private label goods

Analyst & Software Consultant (Contract)

04/2023 – Present

- **ERP Implementation:** Developed and implemented the DEAR ERP system, significantly enhancing the accuracy of purchase and sales management processes.
- **Digital Innovation:** Created an online portal to effectively showcase the product range to potential customers, improving market reach and engagement.
- **Supply Chain Optimization:** Established comprehensive end-to-end Frozen & Chilled supply chains for both import and export activities, markedly enhancing the proposition across key categories.
- **Data Analytics:** Utilised data analytics to identify and curate the optimal product range, significantly enhancing sales performance by aligning inventory with sales trends.

Weezy / Getir, London

Rapid grocery delivery

Senior Supply Chain Associate

07/2021 – 04/2023

- **Operational Efficiency:** Achieved all target KPIs by optimising stock ordering and ensuring seamless operations across the distribution centres and 140 fulfilment centres for improved inventory flow while managing accounts totalling over £1mm p/m.
- **Advanced Analytical Skills:** Utilised Looker, SQL, and Tableau for in-depth supply chain management, sales analysis, and forecasting, significantly enhancing decision-making processes and operational strategies.
- **Mentorship and Team Development:** Mentored junior associates, contributing to team knowledge through SOP creation, while playing a crucial role in projects, including the successful acquisition integration of Weezy by Getir.
- **System Improvements:** Spearheaded upgrades to the Odoo MRP system and implemented innovative forecasting techniques, boosting fulfilment rates from 80% to 95% and enhancing forecast accuracy by 30%, alongside strategic logistics adjustments that reduced waste and improved inventory management.

Recyclabox, London

Early stage startup working to reduce electronic waste

Head of Supply Chain

03/2020 - 05/2021

- **Supply Chain Development:** Led the creation of an end-to-end supply chain for an early-stage tech startup, from prototype to production, incorporating effective 3PL manufacturing and inventory strategies.
- **System Implementation and Vendor Management:** Implemented a comprehensive Bill of Materials and Inventory Tracking system using Odoo, and established strong partnerships with over 50 new vendors.
- **Inventory and Cost Management:** Sourced over 400 SKUs and executed strategic negotiations resulting in over £500k in cost savings, significantly improving financial performance.
